

Bennett Environmental Inc. Announces Extension of Purchase Order on Previously Announced Project

Oakville ON, (November 27, 2009), For Immediate Release – Bennett Environmental Inc. (TSX:BEV) (the "Company" or "BEI") had announced on November 2, 2009 that the prime contractor for the Pottersburg Creek PCB clean-up project had authorized the Company to receive material above the originally contracted amount. BEI today announced that this change has now been quantified and the purchase order has been increased from a maximum of 78,000 tonnes to a maximum of 120,000 tonnes. The extension of the purchase order does not guarantee that the full volume will be shipped or the timing of shipments.

Forward Looking Statements

Certain statements contained in this press release and in certain documents incorporated by reference into this press release constitute forward-looking statements. The use of any of the words "anticipate", "continue", "estimate", "expect", "may", "will", "project", "should", "believe" and "confident" and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. BEI believes that the expectations reflected in those forward-looking statements are reasonable but no assurance can be given that these expectations will prove to be correct and such forward-looking statements included in, or incorporated by reference into, this press release should not be unduly relied upon. These statements speak only as of the date of this press release. BEI undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
